UNDERSTANDING HOW TO BUY JUMPER CABLES

- Always have jumper cables in your car in case of emergencies.
- When purchasing jumper cables always opt for THICKER cables.
- Thicker cables provide less resistance to current flow and allow more power to flow into your battery to start your vehicle.
- Thinner cables carry less current so are less likely to start your vehicle.

WHEN BUYING JUMPER CABLES REMEMBER...
...THE THICKER THE JUMPER CABLES THE BETTER !
