WHAT YOUR CHECK ENGINE LIGHT IS TELLING YOU

- Check engine or service engine soon light is part of the vehicle's diagnostic system. When a check engine light illuminates, it may be solid or blinking.
- **SOLID CHECK ENGINE LIGHT:** Your vehicle is telling you it has a problem that needs attention as soon as possible. Typically you don't have to stop driving when the light is solid.
- **BLINKING CHECK ENGINE LIGHT:** Your vehicle is telling you there is serious damage being done right now. If you have a blinking light stop driving as soon as it is safe to do so and have the vehicle checked by a qualified Technician.
