HIGH MILEAGE OILS

- If your car's mileage is more than 100,000 and is starting to show aging signs (low power, oil consumption, blue smoke, excessive oil leaks) , you should consider using ' High Mileage' oil.
- Oils labeled 'High Mileage' help to improve performance and reduce oil leaks on aging engines.
- To combat leaking problems on older engines, high mileage oils contain swelling agents that help loose engine seals to swell up and seal better.
- High mileage oils contain viscosity (thickness) modifiers that help to reduce engine friction which in turn reduces engine wear.

High Mileage Oil

HELPS EXTEND ENGINE
LIFE IN CARS WITH
OVER 75,000 MILES

5 QT (4.7L)
Commercial
Heavy Use
Container

5 US QUARTS (4.7L)

SAE 5W-30
